

Features

- ◆ Optimised to working with pulsed signals.
- ◆ Power up to 5KW peak power.
- ◆ SMA Connector.
- ◆ Robust and reliable.
- ◆ Low cost.
- ◆ Small size and weight.
- ◆ Optional IP67- IEC.

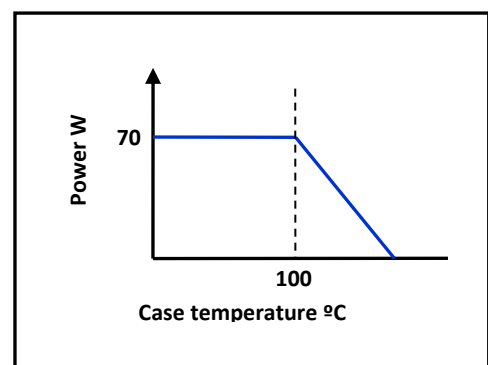

Description

The new power load is designed to provide the right balance between continuous and pulsed power, size, weight and price

Ideal for use in portable equipment whether commercial and military.

Designed especially for use in pulsed applications such as communications equipment, radar, etc.

Custom solutions in frequency, size, weight, etc.

Specifications

Model	Operating frequency (MHz)	VSWR (max)	Power (W) max	Operating temperature (°C)	Package
IF-CA/70/50/S	DC-3000	1.22/1	70	-45/+85	CA10
